

GLOBAL
CLEAN ENERGY
ACTION FORUM
CEM13/MI-7 USA 2022

Welcome to the first full day of the Global Clean Energy Action Forum (GCEAF)! On Wednesday evening, GCEAF officially kicked off with an inspirational welcome from U.S. Secretary of Energy Jennifer Granholm, community leaders from host city Pittsburgh, and youth delegates. Thousands of participants were arriving for the most important clean energy event of 2022, including ministers and private sector and civil society leaders from around the world. Get ready for 2 days of action! [Full program](#)

Livestream: Call to Clean Energy Action

Thursday kicks off with a Call to Clean Energy Action, where gathered ministers from 30+ countries will hear from a distinguished panel including IEA Executive Director Fatih Birol, IRENA Director General Francesco La Camera and U.S. Special Presidential Envoy for Climate, John Kerry. [Follow live](#)

High-Level Roundtables

9 roundtables will bring together ministers and CEOs for dynamic, outcome focused discussions on topics including sustainable bioenergy, net zero built environment, carbon air capture, hydrogen, industrial decarbonization, just energy transition, advancing nuclear deployment, power system transformation and freight transportation.

Livestream: Green Public Procurement Pledge

Under this new pledge, governments commit to buy clean steel, providing massive incentive for companies to invest in new, clean production capacity. Leading steel producers Canada, Germany, India and the United Kingdom launched the Green Public Procurement Pledge, setting benchmarks for low-emission materials in public construction projects, and committing to identify flagship projects to use such materials. Solar World Initiative Launch

Launched today, the CEM Solar World Initiative will see a global coalition working together to help ensure that solar industry supply chains are secure, resilient, and sustainable. The coalition includes the governments of Australia, Germany, India and the United States – some of the largest solar markets in the world – in partnership with multilateral organisations International Solar Alliance (ISA) and International Renewable Energy Agency (IRENA), and industry leaders such as the European Solar Manufacturers Association.

Livestream: Accelerating Clean Hydrogen Deployment

The CEM Hydrogen Initiative (H2I), the MI Clean Hydrogen Mission (CHM) and the Hydrogen Technology Collaboration Programme (TCP) bring together government, industry, innovators and thought champions for a livestreamed event to identify opportunities to

accelerate the deployment of clean hydrogen. The event will also announce the first Hydrogen TCP Award of Excellence. [Follow live](#)

Watch: Clean Energy Video Series

With support from Bloomberg Philanthropies and ClimateWorks Foundation, we've produced a powerful series of five videos outlining the steps to a clean energy future. Check out [Steps 2, 3 and 4 here](#)

Stay Tuned!

The CEM team hopes you are enjoying our updates and live events. Stay tuned for more to come on Friday!
